- 25X1A9a 1. Following the discussion among [REDACTED] 25X1A9a
[REDACTED] and myself this morning, I contacted [REDACTED] by 25X1X7
telephone to inform him of the decision which we had agreed upon.
I indicated that we had some limited information which would be
readily available for delivery to him in satisfaction of the [REDACTED] 25X1X7
requirements on transportation information for Indochina, but that
25X1X7 the scope of [REDACTED] requirements was such that they could
best and most appropriately fulfilled by the Army. Accordingly, I
25X1X7 suggested to [REDACTED] that he ask [REDACTED] to 25X1X7
submit the Questionnaires to ACBI for levying upon the Department
of Engineer Intelligence, Army Map Service.
2. I also indicated to [REDACTED] that GG/F would continue 25X1X7
to be on the lookout for suitable sources of the type of informa-
tion needed, and would advise him of any such sources that came
to our attention.
- 25X1X7 3. [REDACTED] seemed to understand fully the reasons for our
decision not to undertake complete fulfillment of the [REDACTED] Question- 25X1X7
naires, and expressed appreciation for the limited cooperation that
we would be able to extend to him.
